

AOTRAUMA

AO Trauma Seminar

Management of polytrauma patients

September 24th 2022

Ganga Medical Centre and Hospitals, Coimbatore

www.aotrauma.org

Mission

The AO's mission is promoting excellence in patient care and outcomes in trauma and musculoskeletal disorders.

Purpose statement

AO Trauma is committed to improve patient care outcomes through the highest quality education. We strive to combine the right knowledge and surgical skills that empower the orthopaedic and trauma surgeons to put theory into practice and to improve fracture management for the benefit of the patient.

The AO Principles of Fracture Management

Dear AO course participant,

Welcome to the AOTrauma Seminar, which is planned and delivered to meet your needs using a competency-based curriculum approach. This will provide you an opportunity to get an insight on the topics and facilitate you to provide better patient care. The participants will be encouraged to engage in the discussions and share their thoughts with the peers and the faculty. We hope you will enjoy the conference and the entire learning experience.

Yours sincerely

DR DHAIVAL DESAI
Chairman
AO Trauma India

DR J DHEENADHAYALAN
Education Officer
AO Trauma India

Goal of the seminar

This AOTrauma Seminar aims to emphasize on the fundamental concepts in treating polytrauma patients and the emergency life saving procedures. The seminar will help participants to understand decision making and management skills.

Seminar objectives

At the end of this course, participants will be able to:

- Identify the complexities in polytrauma patient evaluation and management.
- To foresee the complications and manage them.
- Understand the Orthopedic principles in the management of a polytrauma patient and apply these techniques with attention to the patient general status

Target participants

The AOTrauma Seminar is targeted but not limited to orthopedic surgeons who are experienced in the care of the trauma patient and who wish to have an update and in-depth knowledge about the management of these challenging injuries.

Seminar description

The seminar consists of contains several evidence-based lectures about holistic evaluation and planning of the polytrauma patients. Various systems in the multiply injured patients will be discussed. This will facilitate better understanding of the impact of individual injuries on the patient as a whole and manage them appropriately for better outcomes
